

CREATE YOUR FUTURE AT ATC WILLIAMS

ATC Williams is an internationally recognised leader in the sustainable design and delivery of Tailings, Water, and Waste projects.

Join our Graduate and Undergraduate Programs

ATC Williams is known for technical excellence in providing Tailings, Water and Waste Management services to the mining and resource sectors in Australia and across the world.

A 'One ATC Williams' multi-disciplinary approach across our offices ensures opportunities for life-long learning. You will benefit from exposure to a diversity of national and global projects, including sites in Asia-Pacific, Mongolia and South America.

We encourage you to create your future at ATC Williams.

UNDERGRADUATE PROGRAM

- Offering 2-3 university students a full-time, fully paid internship from November to February
- Hands-on work in our NATA Accredited Laboratory (Melbourne Only)
- Office experience completing civil engineering, construction, investigation and analytic work.
- Field work to experience site investigations or constructions in action
- Opportunity to enter our Graduate Transition Program working one-two days a week during your final year of study

GRADUATE ENGINEERS

- Opportunity to gain experience across multiple engineering disciplines such as civil geotechnics, hydrology, hydraulics, and hydrogeology
- Accelerate confidence and knowledge with direct access to senior-level staff and clients
- Receive transparent promotion pathways that reward technical, interpersonal and project management capabilities
- Whether applying your skills to water or waste management projects that focus on conservation and sustainability, or global mine tailings and water dam solutions that ensure environmental and public safety – you will always be doing work that contributes to a better world.

If you are an undergrad or graduate who aspires to help deliver projects that apply innovative engineering solutions to achieve long-term sustainable outcomes, your application is welcome today.

Our Purpose

Providing leadership in sustainable Tailings, Water and Waste management solutions to engineer our clients' success and nurture and grow our people.

Our CARE Promise

When you join our team, you become a part of a community that promises to care for you and your career. Here's how:

COMMITMENT

We stay accountable for achieving our purpose

AGILITY

We adapt to change and encourage 'out of the box' collaborative thinking to innovate for growth

RESPECT

We embody and celebrate a diverse and inclusive culture that values client and staff contributions

EXCELLENCE

We provide sustainable solutions through exceptional depth of experience and technical leadership

"As part of the ATC Williams Graduate Program, I experienced first-hand the processes, testing procedures, and consultation associated with the development of domestic and international projects in what has been an exceptional learning experience."

JAMES WHALL - ENGINEER/GRADUATE PROGRAM STUDENT

HOW TO APPLY

Applications close 31 August

Email our People and Culture Team:
PeopleCulture@atcwilliams.com.au

Please include: Cover Letter, Resume, Academic Transcript.
Shortlisted candidates will receive an interview.
